## Ethics & Compliance goes mobile with new app

In our increasingly global and diversified business, we recognise the importance of equipping you with the tools to be able to ensure you can maintain the highest standards of ethics and compliance in your work. The Mubadala Ethics & Compliance Office is pleased to announce the launch of a new mobile app designed to provide access to compliance-related resources wherever you are in the world, and in whatever circumstances you may find yourself.

The app will be especially useful for those employees who are abroad or away from the office regularly, providing on-the-go access to useful Ethics & Compliance materials, including our latest policies and disclosure forms.

No matter the device, the app has been customized to work for you and is available from both the Apple iOS and Android app stores. We encourage all staff to familiarize themselves with the contents of the app, which includes:

- Code of Conduct and Group Compliance Policy summaries
- Ability to submit forms and disclosures through your mobile email client
- FAQs and decision trees
- Library that contains useful resources
- Periodic alerts, notifications and quizzes

To download the App if you are not using M-Apps, search **“M-Ethics & Compliance”** on either Apple iOS or Android app stores.
